

Hill Services

Providing quality services to the Mid-South since 1923!

Now hiring: TRENCHLESS TECHNOLOGY TECHNICIANS

Hill Services is seeking 2-4 Trenchless Technology Technicians. The position entails no-dig construction rehabilitation processes. The Trenchless Technology Technician works in commercial, industrial and manufacturing, nuclear plants, and government facilities. Travel is required on a project basis and could range from days to several weeks. The company provides hotel accommodations, per diem, and transportation to and from locations.

Those without experience are encouraged to apply. We are willing to train the right individual on the job.

Requirements

*(Preferred) Minimum of 2 years experience in CIPP Pipelining industry and have knowledge of both water and steam curing, including air inversion from 3" to 36" diameter piping, pull in place liners and point repairs. Experience with video inspection cameras and mainline cameras are a plus.

*Must understand, or be able to learn, and direct the various operations involved with CIPP, CCTV, cleaning and bypass flow management.

*Due to work in nuclear facilities, must be able to pass a 10 year minimum criminal record check. Must also possess a valid driver's license, with less than 3 moving violations in the previous 3 years.

*Must be able to travel and be out of town for extended periods of time (travel expenses including per diem paid by company).

*Must be able to work with resin and chemicals associated with the installation of cured-in-place liners; A listing and MSDS are available.

*Must be able to stand most of the day and walk on uneven ground

*Must be able to use proper lifting technique to lift, walk, pull, and drag a minimum of 50 pounds.

*Must be able to enter and exit structures (Manholes, Vaults, etc.) leading to underground pipelines and safely work within the confined spaces in accordance with applicable Federal, State and company safety guidelines.

*Must be able to ascend and descend a minimum 25' ladder and work in elevated situations.

*Must be able to install pipe plugs on sanitary, storm, and process pipelines in potentially wet environments.

*Must be able to work in adverse weather conditions and overtime when required.

Benefits

*Continuing education and safety training provided.

*Competitive pay based on experience, plus company benefits (health/dental/vision/life insurance, paid sick and vacation, paid holidays, weekly pay, and 401K).

*Family friendly environment.

Job Type: Full-time

Salary: \$16.00 to \$27.00/hour, based on experience
